ZERO SUICIDE METRICS (last updated 3-26-2020)

Full implementation of Zero Suicide includes the ability to track the suicide metrics. Prior to completing the online OHA Zero Suicide Assessment Scoring Tool, sites may want to calculate these metrics for the most recent reporting period (month or quarter) as a way to confirm that their tracking mechanisms are in place. The OHA/PSU online implementation assessment tracks changes in these data over time for sites that provide them. For more information, contact meghan.crane@state.or.us or cellark@pdx.edu.

Health System: _____ Reporting Period : _____

(Example: June 1-30, 2020)

1. SCREENING *(Element #3: Identify)*

    1a. How many new patients/clients were enrolled during this reporting period? _____

    1b. Of those, how many received a suicide screening? _____

    1c. What percent of new clients received a suicide screening during this reporting period? *(=1b/1a)*
        _____

2. ASSESSMENT *(Element #3: Identify)*

    2a. How many new and existing patients/clients screened positive for suicide risk during the reporting period? _____

    2b. Of those, how many received a comprehensive risk assessment on the same day as the screening? _____

    2c. What percent of clients received a comprehensive risk assessment on the same day as their screening? *(=2b/2a)* _____

3. SAFETY PLANNING *(Element #4: Engage)*

    3a. How many patients/clients were screened and assessed positive for suicide risk during the reporting period? _____

    3b. Of those, how many had a safety plan developed on the same day as their screening/assessment? _____

    3c. What percent of clients had a safety plan developed on the same day as their screening/assessment? *(=3b/3a)* _____

4. RESTRICTION OF ACCESS TO LETHAL MEANS *(Element #4: Engage)*

    4a. How many patients/clients were screened and assessed positive for suicide risk during the reporting period (*same as 3a*)? _____

    4b. Of those, how many were counseled about lethal means on the same day as their screening/assessment? _____

    4c. What percent of clients were counseled about lethal means on the same day as their screening/assessment? *(=4b/4a)* _____

5. CAUSE ANALYSIS *(Element #7: Improve)*

    5a. Date of most recent root cause analysis of a suicide death: _____

    5b. Date of most recent suicide death of someone in care: _____
